Title: Pharma Quiz Competition on the topic "Combating Anti-microbial Resistance (AMR)"

Objective:

- 1) To create awareness among pharmacy students about antimicrobial resistance (AMR), its causes, consequences, and emerging challenges.
- 2) To promote the rational use of antimicrobials, responsible prescribing practices, and effective strategies to combat AMR through an engaging and educational quiz competition.

Program Outcome: PO1, PO2, PO3, PO5, PO8, PO11.

Details of the Resource Person/Event: NA

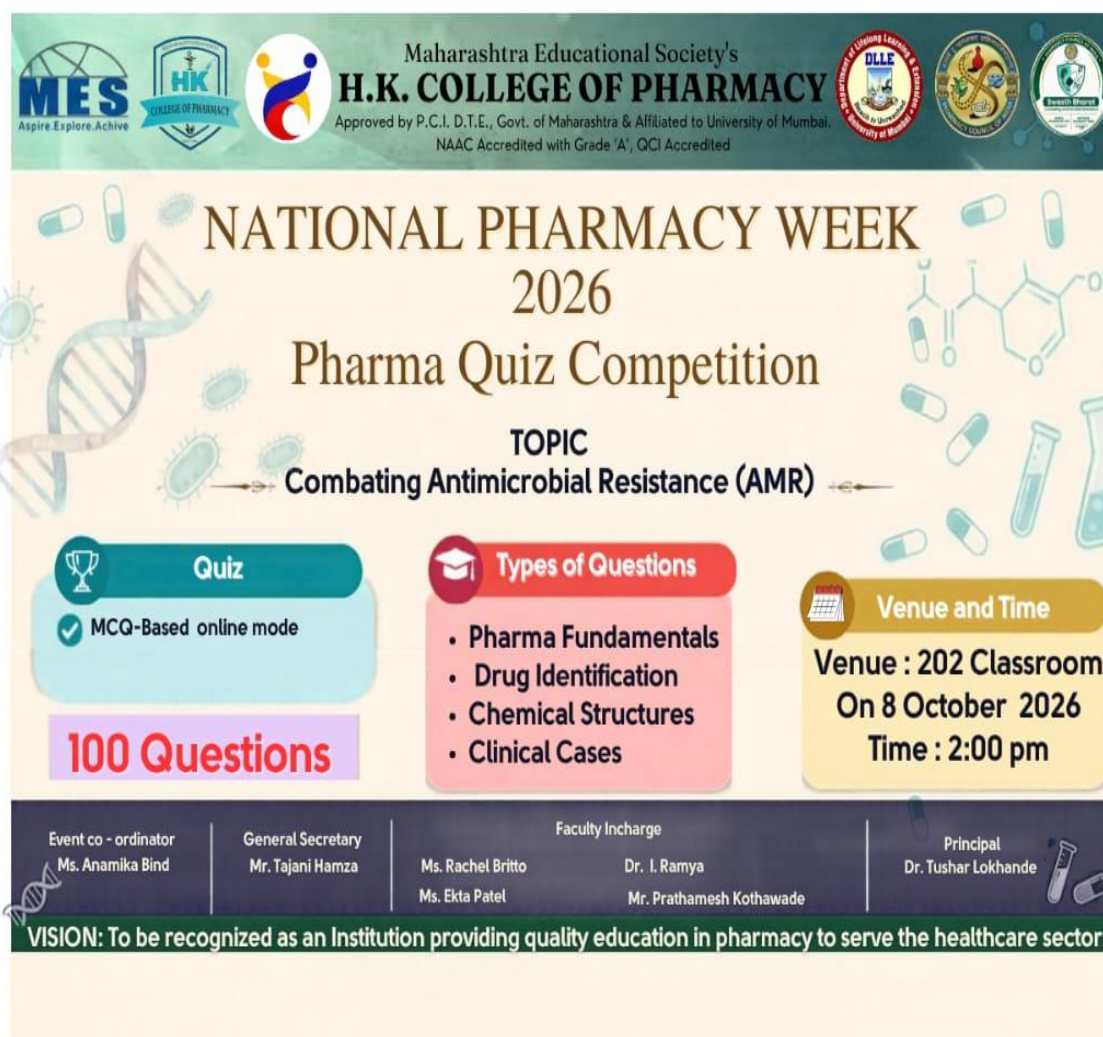

Participants Details:

Sr. No.	Particular	No. of Attendee
1	Boy Students	16
2	Girl Students	8
5	Total no. Students	24

Summary of the Lecture/Activity:

A Pharma Quiz Competition on the theme “Combating Antimicrobial Resistance (AMR)” was organized to create awareness among pharmacy students about the growing threat of antimicrobial resistance and its impact on public health. The competition tested participants’ knowledge of the causes and consequences of AMR, the rational use of antibiotics and other antimicrobials, infection prevention, and strategies to combat the development and spread of resistant microorganisms. The activity encouraged active participation, enhanced students’ understanding of responsible antimicrobial use, and highlighted the important role of pharmacists in promoting antimicrobial stewardship and preventing antimicrobial resistance.

NATIONAL PHARMACY WEEK
2026
Pharma Quiz Competition

TOPIC
Combating Antimicrobial Resistance (AMR)

Quiz
✓ MCQ-Based online mode
100 Questions

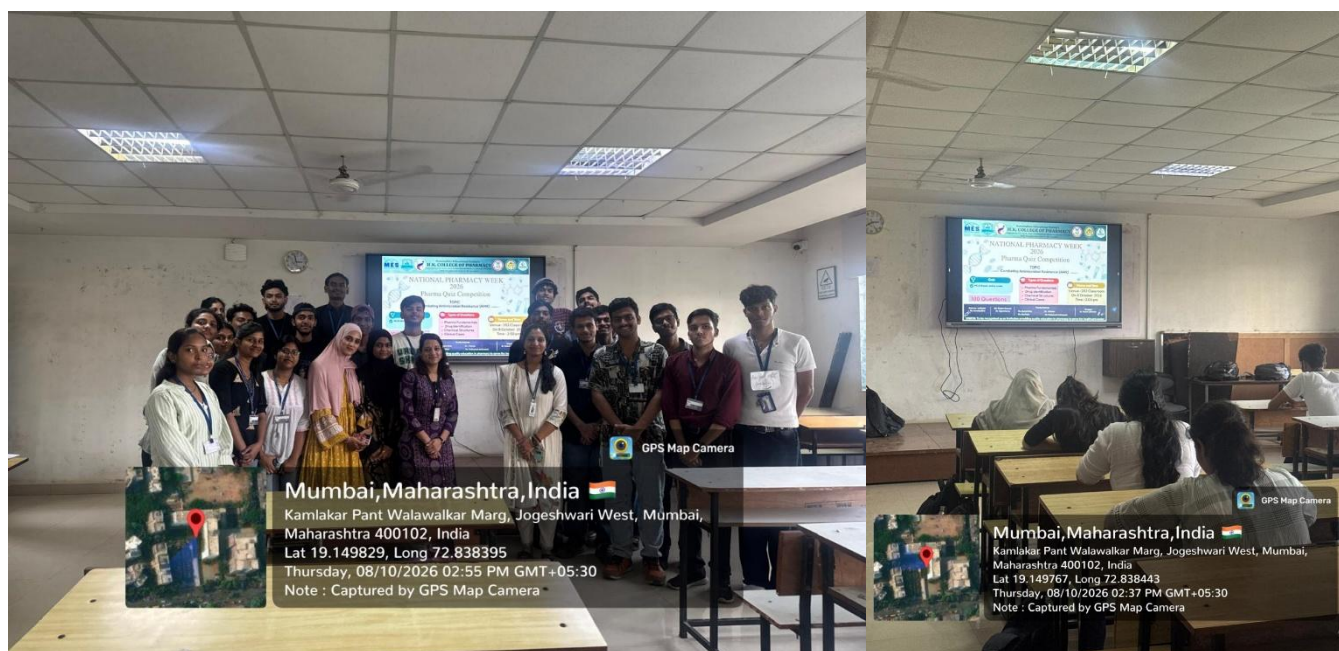

Types of Questions

- Pharma Fundamentals
- Drug Identification
- Chemical Structures
- Clinical Cases

Venue and Time
Venue : 202 Classroom
On 8 October 2026
Time : 2:00 pm

Event co-ordinator Ms. Anamika Bind	General Secretary Mr. Tajani Hamza	Faculty Incharge Ms. Rachel Britto Ms. Ekta Patel	Principal Dr. Tushar Lokhande
---	--	--	---

VISION: To be recognized as an Institution providing quality education in pharmacy to serve the healthcare sector.

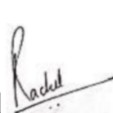

Key Outcome of the Lecture/Activity:

- Enhanced knowledge of fundamental pharmaceutical concepts.
- Improved drug identification and recognition skills.
- Strengthened understanding of chemical structures and structure–activity relationships.
- Developed clinical reasoning and problem-solving abilities.
- Promoted awareness of rational drug use and patient safety.
- Improved analytical thinking and quick decision-making.
- Encouraged teamwork, confidence, and healthy competition.
- Identified learning gaps and encouraged continuous learning.
- Strengthened the application of theoretical knowledge to practical pharmacy scenarios.
