Title: Poster Competition on "*Swastha Bharat: Combating Antimicrobial Resistance*"

Objective:

- To create awareness about antimicrobial resistance (AMR).
- To promote cleanliness, hygiene and infection prevention.
- To encourage the rational use of antibiotics and other antimicrobial medicines.
- To highlight the role of pharmacists in combating antimicrobial resistance.

Program Outcome: PO1, PO5, PO7 and PO8.

Details of the Event:

A poster competition was conducted on 8 October 2026 under the Western Maharashtra Team as part of the Pharmacy Council of India's AMR Awareness Mission, celebrating World Pharmacists Day / National

Pharmacy Week – 2026. The theme was “*Swastha Bharat: Combating Antimicrobial Resistance.*”

All posters were evaluated by the following evaluators:

1. Mr. Amol More
2. Ms. Nikhat Khan
3. Ms. Saba Khan

The posters were assessed based on their relevance to the theme, scientific content, creativity and presentation. Out of 21 registered participants, 3 participants were selected.

Participants Details:

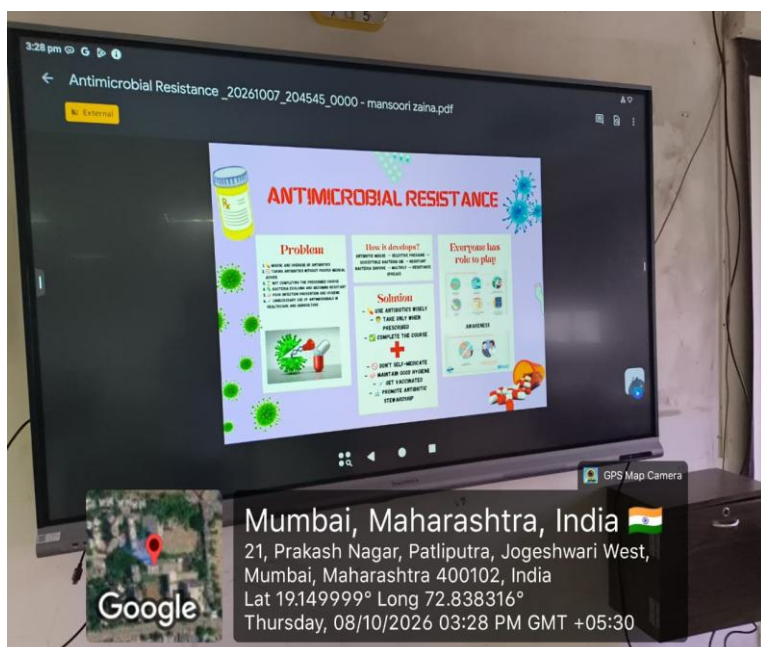

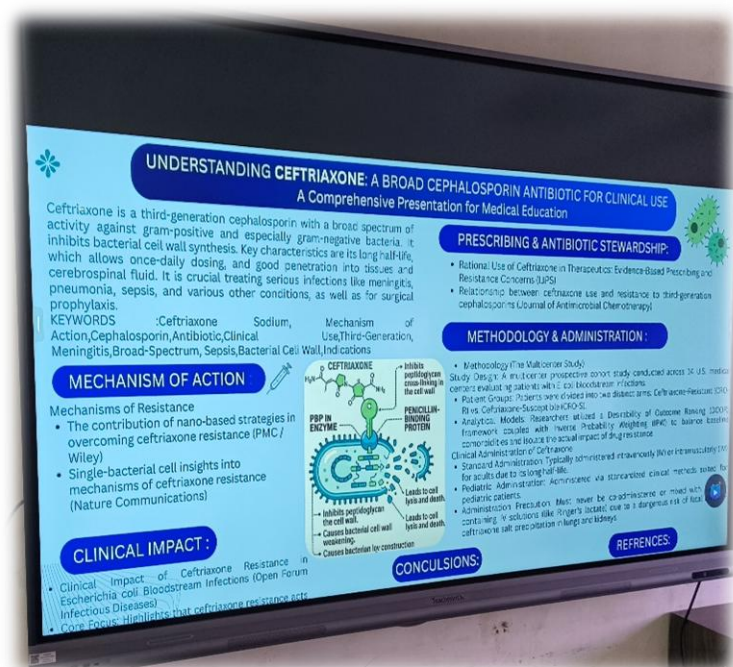

Total no. of college students: 62 participants registered

Total no. of Faculty: 3 evaluators

Summary of the Activity:

The poster competition provided a platform for participants to present awareness messages on antimicrobial resistance through posters. The activity focused on the importance of cleanliness, hygiene, infection prevention and the responsible use of antimicrobial medicines. The evaluation process was completed by three evaluators, and three participants were selected. The activity helped promote awareness of AMR and highlighted the role of pharmacists in protecting public health.

Brochure/Photo Gallery:

Key Outcome of the Activity:

The activity created awareness about antimicrobial resistance, cleanliness, hygiene and the rational use of antibiotics. Out of 21 registered participants, 3 were selected after evaluation by the three evaluators. The competition encouraged scientific creativity and highlighted the role of pharmacists in preventing antimicrobial resistance and protecting public health.
