Summary of the Lecture/Activity:

The Session on “**GPAT & NIPER JEE Exam Preparation Strategy**”, conducted by top GPAT rankers of MES H.K. College of Pharmacy, Mr. Shivam Chaturvedi and Mr. Sahil Gupta, offered pharmacy students a practical and well-structured roadmap for succeeding in competitive entrance examinations. Their talk can be structured into

I. Exam Pattern and Key Focus Areas

The speakers explained the major differences between GPAT and NIPER JEE. GPAT was described as a knowledge-based examination consisting of 125 MCQs to be completed in 3 hours, while NIPER JEE was highlighted as a more application-based and speed-oriented test with 200 MCQs to be solved in 2 hours.

They also emphasized the subject-wise weightage, drawing attention to high-yield areas such as Pharmaceutical Chemistry, Pharmaceutics, Pharmacology, and Pharmacognosy. This helped students understand how to prioritize topics and allocate preparation time effectively.

II. Preparation Strategy

- Build a strong foundation during the initial phase of preparation.
- Practice important topics regularly and maintain an error log to track mistakes.
- Attempt full-length mock tests every week under timed conditions.
- Use the final stage of preparation for quick revision through short notes.

III. Key Guidance

The resource persons advised students to remain consistent rather than depend on last-minute cramming. They also stressed the importance of avoiding blind guesses to reduce negative marking. The session concluded by encouraging students to use GPAT preparation as a strong base, as it covers nearly 70% of the NIPER JEE syllabus.
