Update on Bioequivalence Studies: The Global Scenario

December 15, 2021, at 4:30 p.m. IST (11:00 a.m. GMT)

Join us for an informative presentation of the latest techniques in performing bioequivalence studies. Learn from expert speakers including Dr. M. N. Saraf of the H. K. College of Pharmacy, plus Mr. Satish Kakodkar and Dr. Ashvin Patel of Teledyne Hanson, manufacturer of the CD14 Comparative Dissolution Tester designed specifically to aid in bioequivalence studies.

Webinar topics:

- Understanding U.S. FDA regulations and the importance of 21 CFR Part 11 compliance
- Guidance for applicants planning to include bioequivalence (BE) information in their abbreviated new drug applications (ANDAs) and ANDA supplements
- Key benefits of 14-vessel comparative dissolution systems
- Live demonstration of Teledyne Hanson's CD14 Comparative Dissolution Tester

From this one-hour presentation and interactive Q&A session, attendees will be brought fully up to date on the latest **regulatory requirements** and known best practices for **evaluating innovator versus generic drug formulations**.

Principal and Convener:

Prof. (Dr.) M. N. Saraf

About Our Guest Speaker:

Dr. Ashvin Patel

Director of Analytical Research
and Business Development,
Teledyne Hanson

Dr. Ashvin Patel has been in the pharmaceutical industry for over 25 years. He obtained his Ph.D. in Chemistry from Veer Narmad South Gujarat University. Prior to joining Teledyne, he held various positions with increasing responsibilities in large pharmaceutical companies. He successfully led multiple research projects and teams of talented scientists. His expertise in analytical chemistry helped many companies file ANDA and other regulatory submissions to obtain approval from FDA.

Maharashtra Educational Society's
H.K. College of Pharmacy

Maharashtra Educational Society's
H.K. College of Pharmacy

Industry Institute Partnership Cell of HKCP, in Collaboration with Teledyne Hanson, Presents:

An Update On Bioequivalence Studies: The Global Scenario

About H. K. College of Pharmacy: HKCP was established in 2006 by the late Prof. Javed Khan, Ex-Education Minister of the State of Maharashtra. The college is approved by UGC, AICTE, DTE, PCI and is affiliated with the University of Mumbai. The college offers two programs: B. Pharm. and M. Pharm. (Pharmaceutics). HKCP is making every effort to provide a sound foundation in pharmaceuticals for its students so that they can contribute to a better and healthier tomorrow. Our qualified, committed, motivated faculty and excellent infrastructure and facilities provide an academic and professional base to the students.
