Dr. Yogesh Jadav began his speech by warning the audience about fake websites and cybercriminals/hackers.

Dr. Yogesh Jadhav made the audience aware that a hacker plays on a victim's sentiment and tends to hurry his victim to commit mistakes while they are online.

He requested his audience to take into account the following :-

- Never upload high resolution pictures on social media, they may be used in porn-videos which can then be used as a blackmail medium. Avoid close face photographs.
- Never upload your personal details online.
- Always disable international transactions when not required in your credit card account or in your debit card account. Since OTP (one time password) is not required for international transactions.
- There are pre-filled QR codes, so never blindly sanction amounts without checking in UPI transactions. Always check the bank name in the UPI address and confirm it with the receiver before sending money to that account.
- Never access any link given on Whatsapp. Never download .apk files sent on WhatsApp.
- Cybercrimes are committed often on Facebook Messenger so check URL, Time Line, Common Friends before accepting a friend request on Facebook Messenger.
- One bitcoin is valued at 35 lakhs. Cryptominers send mining softwares and take control of the CPU or laptop. If your laptop becomes slow suddenly...it may be a problem.
- Never transact on bitcoins since they cannot be traced.
- Avoid Loan apps.
- Avoid getting honeytrapped.
- Register your financial fraud or complaint in National Payment Corporations of India (NPCI) (<https://www.npci.org.in/>) within two hours of a fraudulent UPI transaction and within 1 day of a NEFT transaction.
- Websites can be cloned. Go to the <https://who.is/> website. Paste in the URL of the website and check the date of origin of the website, owner of the website, security certificate to determine the authenticity of any given website.
- Check whether your email address is part of the darkweb. Go to <https://haveibeenpwned.com/> Website, paste your email address and check where your email is breached.

- Carefully check the messages received from supposedly bank officials. Banks will never ask you to access short URLs.

He then showed how a website can easily be cloned by easily available tools and so one should be very careful while sending money via the websites.

Prof.(Dr.) Tushar Lokhande, Principal H.K. College of Pharmacy, felicitated Dr. Yogesh Jadhav. The session was appreciated by all.

**Total no of Faculties: 15**

**Key Outcome of the Lecture:**

- Students was aware about the patent, copyright and trademarks
- Motivated for research and patents

**Summary of the Lecture:**

The objective of the workshop was to provide participants with comprehensive overview, giving broad idea about Intellectual Property Rights and IP Management for start-up and its importance. The event was held at HKCP auditorium and was attended by a total of 180 students.

The students enjoyed the workshop and were benefitted with the all-encompassing understanding of Intellectual Property Rights and its importance in IP Management for start-up. This empowered the students with the necessary awareness, knowledge and tools to protect their ideas and their business. They got to know how intellectual property rights can help their business to build a market value and that having an IPR is an asset for the company and that it can be bought, sold, licensed and exchange like any other property.

Through this workshop students learnt about the important factors to protect one's business or product from being copied. The workshop was a success and was much appreciated by the students as they significantly benefited from this workshop.

### **Key Highlights of the Activity/Lecture:**

Dr. Anuradha Vinayak Pai welcomed the audience and speaker. Following which Dr. Vipul Vyas engrossed the audience with inspiring words and videos while delivering his talk in national language. The speaker exemplified "Problem Solving and Ideation" with a wonderful exercise in which students participated.

Through his numerous examples, Dr. Vipul Vyas made audience realize that there is no problem without solution and encouraged students to visualize problems as challenges. He drove the message that Life is all about challenges, and to wade through, one needs to hunt for innovative solutions than focus on problems. And this can be done by having a positive mindset and by avoiding overthinking, which is the key to mental peace. He hammered the fact that a peaceful, positive and innovative mindset makes us achieve whatever we need to and become whatever we need to.

He further emphasized to students that there are no qualifications needed to solve problem. One just has to practice what is right and stop doing what is wrong. And carry following systematic and strategic steps to problem solving such as Identifying the problem, Gather information about the problem, Generate innovative solution for the problem, Evaluate solutions and Implement the best solution. He elaborated each individual steps associated with problem solving with help of various exercises and group activities. With he stressed on use of innovations to solve different day to day problems with help of various practical examples.

The session was lively, interactive, thought provoking and inspiring. The entire audience connected with the speaker who asked speaker lots of questions. The session ended with Thank you note by Prof. Tushar Lokhande (Principal, H.K College of Pharmacy).

### **Key Highlights of the Activity/Lecture:**

The session started with the introduction to cyber security by Mrs. Geeta Taur who also welcomed the speakers.

The speakers made the audience aware of the various ways in which their data can be hacked and compromised. They alerted students about third party apps which demand a lot of permissions which pose a threat to personal confidential information.

The students were thoroughly informed about various cyber frauds via factual examples.

A video on dos and don'ts when using apps and mobile devices to prevent fraud was played by speakers.

The Q &A sessions were interactive with various questions from faculty and students.

The speakers made students aware of the cybercrime helpline numbers -1930 and Meri Trustline number- 6363176363.

### **Brochure/Photo Gallery:**

The brochure is for a 'Cyber security Awareness' session organized by Maharashtra Educational Society's H. K. College of Pharmacy, Oshiwara, Jogeshwari (W), Mumbai-102. It is scheduled for Saturday, 21st Oct 2023, from 2-3 pm at the H. K. College of Pharmacy-Auditorium. Subject: Seeking permission for conducting "Cyber Security Awareness" presentation

Respected Sir / Madam

"Cyber Security Awareness" program is being conducted by Maharashtra Cyber & Quick Heal Foundation across Maharashtra along with student volunteers from July 2023 till March 2024. The objective of the program is to identify, prevent and report cyber-crime, follow netiquettes, and safeguard students in virtual world.

As everyone is now using internet for varied purposes from sending casual messages to purchasing online, from studying online to doing business online, this generation must be aware of possible threats in cyber world and how to combat them. Having sensed need of an hour, Maharashtra cyber & Quick Heal Foundation has taken this initiative of "Cyber Security Awareness" for students.

Request you to grant permission to conduct "Cyber Security Awareness" presentation in your institution. Duration of presentation is 45 minutes. This program will make students understand how to identify online threats, how to prevent them and how to report in case of distress.

Separate presentations are conducted for students of Std. 5<sup>th</sup> - 7<sup>th</sup>, 8<sup>th</sup> - 10<sup>th</sup> 11<sup>th</sup> -12<sup>th</sup> and senior college students.

Looking forward to a favorable response from you.

### Key Highlights of the Activity/Lecture:

The session started with the introduction to cyber security by Mrs. Geeta Taur who also welcomed the speakers.

The speakers made the audience aware of the various ways in which their data can be hacked and compromised. They alerted students about third party apps which demand a lot of permissions which pose a threat to personal confidential information.

The students were thoroughly informed about various cyber frauds via factual examples.

A video on dos and don'ts when using apps and mobile devices to prevent fraud was played by speakers.

The Q & A sessions were interactive with various questions from faculty and students.

The speakers made students aware of the cybercrime helpline numbers -1930 and Meri Trustline number- 6363176363.

Archana Upadhy delivered the introductory note. Dr. Tushar Lokhande felicitated Mr. Shailesh Katariya with a token of appreciation.

Mr. Shailesh Katariya first recounted his experiences at several organizations (on demand by the audience) and then began delving into the topic of his expertise -Medical Devices. He gave a summary of medical devices explaining the difference between a drug and a medical device. He then thoroughly explained the challenges faced by the Indian Regulatory Authority CDSCO for regulating the medical devices. He gave an overview of various regulatory agencies around the globe. He made the audience aware of the classification of medical devices and the stringency of criteria that is associated with regulatory evaluation of each class of medical devices.

He emphasized that a manufacturer of medical devices desirous of selling his device in the Indian Market, must register at the government “SUGAM” portal, and follow the directives thereof. Mr. Shailesh Katariya, then interacted one-on-one with the students clearing the doubts and queries about the topic.

It was an informative and interesting session for students and faculty who gained knowledge outside their core expertise.
