

Date/Day: 09.05.2026/Saturday

Global Alumni Guidance Session

Title: Overseas Opportunities in Pharma Sector

Objective: To connect students and early-career professionals with global alumni, enabling insights into higher education, international careers, professional development, and networking, while supporting informed academic and career decisions.

Program Outcome: PO3, PO7 and PO8

Details of the Resource Person/Event:

Dr. Dipak Gangurde, Project Manager Prota Gene Germany, HKCP Alumni (2006-10 batch)

Participants Details:

Total no. of college students: 46

Total no of Faculty: 03

Summary of the Lecture/Activity:

Dr. Gangurde shared his academic and professional journey from HKCP to Germany, highlighting the importance of strong fundamentals, continuous learning, and perseverance in building a successful global career. He provided students with valuable information about higher education opportunities abroad, admission requirements, scholarships, and the skills needed to excel in international academic and professional environments. He also discussed the diverse career opportunities available in the global pharmaceutical and biotechnology industries, including research and development, regulatory affairs, quality assurance, project management, clinical research, and pharmaceutical manufacturing. Emphasis was placed on the importance of technical expertise, communication skills, networking, and cultural adaptability for success in international workplaces.

Drawing from his personal experiences in Germany, Dr. Gangurde encouraged students to remain curious, embrace innovation, and continuously upgrade their skills to remain competitive in the evolving pharmaceutical landscape.

The session was highly interactive and inspiring, providing students with a broader perspective on global opportunities in the pharmaceutical sector. The lecture concluded with an engaging question-and-answer session, where students received valuable advice regarding career planning, higher studies, and professional development.

Overall, the session served as an excellent platform for motivating students to explore international opportunities and prepare themselves for successful careers in the global pharmaceutical industry.

Brochure/Photo Gallery:

Key Outcome of the Lecture/Activity:

- Students' awareness of global career opportunities in the pharmaceutical and biotechnology sectors was enhanced.
- Students gained valuable insights into higher education pathways and research opportunities abroad, particularly in Germany.
- Students developed a stronger understanding of the academic, technical, and professional skills needed for international careers.
- Students were introduced to overseas admission processes, scholarship options, and career prospects.
- The session emphasized continuous learning, adaptability, and professional networking as essential for success in a global environment.
